

SHIPMENT OPTIMIZATION AND VISIBILITY

As a leading provider of supply chain logistics solutions, Vantix employs state-of-the-art software to ensure your product is shipped to your standards. Using continuous move and dedicated lane algorithms, our systems can plan out the most efficient routing possible for full truckloads. For LTL shipments, we leverage our extensive network of carriers and volume density to combine loads as needed—reducing costs for you.

Another clear Vantix advantage is our shipment visibility. Throughout the shipment lifecycle, we track your freight to know when it has reached certain milestones, including arrival at origin, departure from origin, arrival at destination and departure from destination. The tracking information can be relayed to your email or mobile device.

To learn more about how Vantix can help optimize your supply chain and reduce landed costs with absolute confidence, call 972.371.5032 or visit www.vantixlogistics.com
