

# TRANSPORTATION MANAGEMENT

As a leading provider of supply chain logistics solutions, Vantix can manage all of your truckload and less-than-truckload shipment needs. Our close industry relationships with more than 3,000 leading carriers enable us to provide outstanding performance at competitive rates for long-haul and regional movements. Additionally, our shipping volume affords us unparalleled leverage in ensuring your products are delivered in the most efficient routing possible. If needed, we can even integrate and optimize private fleet utilization to ensure your products arrive when and where you need them.

Prior to utilization, all carriers are subjected to a stringent certification process that examines such factors as:

- Insurance coverage
- Safety records
- Financial health
- Shipping capacity

By using a value-based carrier selection methodology, we can identify the carriers best suited to help your business succeed—not just the lowest bid. If a carrier does not meet your requirements, it is not permitted to haul your freight.

To learn more about how Vantix can help optimize your supply chain and reduce landed costs with absolute confidence, call 972.371.5032 or visit [www.vantixlogistics.com](http://www.vantixlogistics.com)
